

Commit Two Details

Written by James Prestage for Jack Kelke

Updates:

1. Strava increased authorized athletes limit to 999
 - My friend Matthew (mongan2125@gmail.com) and my data are there now
 - Feel free to look at Commit One Update and authorize yourself
2. Code edited to skip over exercise data that doesn't include a start latitude/longitude
 - No point including them if you can't tell where in the world they are
